OnGuard 'ACEProLiTE' Product Guide

Training Units listed by Curriculum Pack

Our OnGuard ACEProLiTE program is designed to specifically meet the needs of the Australian education sector. We can provide a more basic program: ACEProIndTech or our new ACEProSTEMM program. We can tailor a training package to your specific curriculum requirements. Training needs are different so we offer a 'Price On Application' quotation process.

ACEProLiTE – At start-up there is one 'Teacher Registration' with a generic login used by all teachers. Each Curriculum Pack indicated is included in the initial subscription. It is a set offering. Changes are NOT permitted. ACEProLiTE has an 'Annual Subscription' paid from the second year. You will be invoiced annually on your account anniversary.

Basic Technology Curriculum Packs
